ConnectionDetector.java

```java
1    package de.dl1rlb.myrealtime;
2
3    import android.app.Service;
4    import android.content.Context;
5    import android.net.ConnectivityManager;
6    import android.net.NetworkInfo;
7
8    public class ConnectionDetector {
9
10       Context context;
11
12       public ConnectionDetector(Context context) {
13           this.context = context;
14       }
15
16       // Prüfen ob Internet vorhanden ist
17       public boolean isConnected() {
18           ConnectivityManager connectivity = (ConnectivityManager) context.getSystemService(Service.CONNECTIVITY_SERVICE);
19           if (connectivity != null) {
20               NetworkInfo info = connectivity.getActiveNetworkInfo();
21
22               if (info != null) {
23                   return info.getState() == NetworkInfo.State.CONNECTED;
24               }
25           }
26           return false;
27       }
28   }
29
```
